  4.Collaborative team player, actively contributing to cross-functional analyses and fostering seamless communication
- **Fraud detection model using R**
  1.Strong ability to extract meaningful insights from complex datasets, facilitating informed decision-making processes.
  2.Data cleaning of large data set and manipulation
  3.Collaborative team player, actively contributing to cross-functional analyses and fostering seamless communication

Skills

- Data analysis
- Advance Excel
- Ms power BI
- SQL
- Basic python
- Designing

Certificates

- Data analyst intern completion at meri skill
- Power bi intership completion at cognifyz technologies
- Power bi from Simplilearn
- Business analytics from Simplilearn

Strength

- Team coordinator
- Presentation
- Communication
- Problem solver
